

Fibrosis 2.0 Symposium
November 15th 2019
Utrecht University, Faculty of Veterinary Medicine
(Yalelaan 1 • 3584 CL Utrecht).

Presentations 25 minutes, discussion 5 minutes

9:30 - 10.00 Registration and coffee

10:00 – 10:10 Opening, Prof. Dr. Janette Burgess, NVMB President.

Session 1 *Chair: Marjolein Caron*

10:10 – 10:40 Prof. Dr. **Ruud Bank** (UMCG)
Collagen in fibrosis: it is not only the quantity that counts

10:40 – 11:10 Prof. Dr. **Janette Burgess** (UMCG)
Are we listening closely enough to the messages from the matrix in lung fibrosis?

11:10 – 11:40 Dr. **Lars Verschuren** (TNO)
Molecular signatures in NASH and fibrosis

11:40 – 12:10 Dr. **Darcey Black** (Director translational TherapeutAix):
Building a pre-clinical platform of evidence to the future clinical landscape in fibrotic disease

12.10 – 13.00 LUNCH

Session 2 *Chair: Doris Rosero Salazar*

13:00 – 13:30 Prof. Dr. **Han Moshage** (UMCG)
Mechanisms underlying the development of NASH

13:30 – 14:00 Prof. Dr. **Roel Goldschmeding** (UMCU)
Cellular Senescence and Kidney Fibrosis

14:00 – 14:30 Prof. Dr. **Peter Olinga** (RUG)
An ex vivo (human) organ fibrosis model: the missing link in fibrosis research

14:30 – 14:45 BREAK

Session 3 *Chair: Reinout Stoop*

14:45 – 15:15 Dr. **Jan Lindeman** (LUMC)
Fibrosis in vascular disease: friend or foe

15:15 – 15:45 Prof. Dr. **Marie-José Goumans** (LUMC)
Is TGF β the good or the bad guy in fibrosis?

15:45 – 16:15 Q&A / Round table discussion with the keynote speakers

16:15 – 18:00 Networking and drinks
